Feedback
Online-Seminar German Culture
(Flueh)

I liked very much the German Culture Seminar, it was a good space for sharing and discussing our ideas and concerns about living in Germany as an expat. I have a few comments that may be helpful.

* Each session lasts 4 hours, which is fine for face-to-face sessions but may be a little too much for virtual ones. Specially if it is two days straight. Maybe it is a good idea to plan more, shorter sessions or set a break in between
* It took me by surprise that each session lasts 4 hours. Maybe it was written in the emails we got and I missed it, but it would be a good idea to state that if it wasn’t
* I wish it focused a little bit more in understanding the German culture and a little less in politics

Besides that, I feel that the seminar was well organized and the topics covered were interesting. I hope this feedback is helpful to you.
