a) Aims and target group of funding

Under the Zielvereinbarungen (target agreements) for 2023–2027 concluded between the Faculty of Engineering and FAU, funding is available to invite excellent young women researchers from other research institutes to spend time as a visiting researcher at the Faculty of Engineering. This encourages active headhunting of excellent women in the subject areas covered by the Faculty of Engineering and serves to promote the internationalisation of FAU.

Funding is available for **doctoral candidates who are at an advanced stage in their doctoral research, postdoctoral researchers, habilitation candidates and junior professors.**

b) Amount of funding

The maximum amount of funding available for each application is €2,000. Funding is subject to availability.
